

Tent Anchoring Information

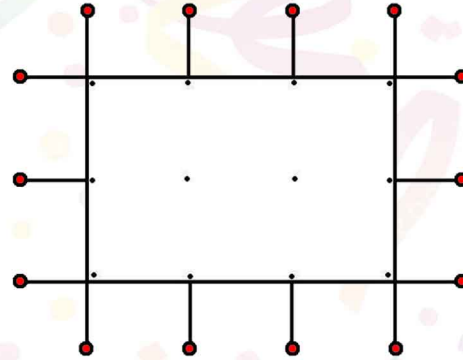

Stake & Pole Tent

Stake and pole tents require an anchoring point at every side pole and 2 at every corner pole.

These types of tents do not work over driveways.

Stake and pole tents can be anchored with:

- Stakes (Grass, gravel or asphalt surfaces)
- Concrete Anchors (Concrete surfaces)

ANCHOR POINTS

Frame tents require an anchoring point at every leg. These also have suspended center poles which do not touch the ground. **These tents do work over most driveways.**

Frame tents can be anchored with:

- Stakes (Grass, gravel or asphalt surfaces)
- Concrete Anchors (Concrete surfaces)
- 1000 lbs Cement Blocks (Any hard surface)
